

## Fresh new look for Kapolei.com

### Redesigned website unveiled

The familiar “old” Kapolei website has been completely redesigned with a fresh new look. The user-friendly site also has an updated message — that while Kapolei is the place to live, work and thrive, it is also the place where businesses can still invest in prime real estate in the region.

Kapolei has seen tremendous growth since it broke ground in 1990, with companies investing billions of dollars over the years to help create the new city. Today, with much of the city now built, there are still lands available that are the last remaining opportunities to invest in prime real estate in and around the fastest growing region in the state. The development of these lands will be the final milestone in completing the vision of the Kapolei Long Range Master Plan.

### Touring Kapolei

The new website takes visitors on a tour of Kapolei, highlighting its many attributes and attractions. Describing itself as “the source for just about everything you want to learn about Kapolei,” the website is the single dedicated source for almost all things Kapolei.

### Live

“We wanted to make the site as complete and as useful as we could for everyone — especially residents,” said Dave Rae, Kapolei Properties LLC’s senior vice president. “In the Live section, we provide links to major organizations, businesses and government offices whose services and resources make Kapolei a dynamic and very livable city.”

### Work

“In the Work section, we highlight some of the city’s major commercial job centers and list useful links for job seekers who are interested in both government and private sector jobs,” Rae said.

### Invest

“In the Invest section, we also provide valuable information for current and potential new businesses that are looking for investment opportunities in Kapolei,” said Rae. “We have detailed maps that show what’s available for both lease and sale, along with contact information.”

### About

The About section takes a look at Kapolei’s history and the company behind its development. It also offers links to two company related charitable giving programs that give grants primarily to organizations that serve West O’ahu communities.

### History of Kapolei

There’s a long and rich history behind Kapolei’s development. A timeline gives you snapshots of its earliest beginnings, starting with the legacy of James Campbell, the man who made it all possible, through the many milestones that describe the growth of this new city to the present day.

### Development Team

The moving force behind Kapolei’s development is Kapolei Properties LLC (KPL), an affiliate of the James Campbell Company LLC, which focuses on the development of the City of Kapolei, and on stimulating economic development and job creation in the region. The new website was developed by KPL.

### Community

An important part of building a city is fostering the wellbeing of those who reside there and in surrounding communities. Both the James Campbell Company and the James & Abigail Campbell Family Foundation have strong ties to the communities of the West O’ahu region, and support them through their grant giving programs. Each program has its own guidelines, which can be found via links on the website.
